CONFIDENCE ACADEMY

Structured 3-Stage Learning Program

DISCOVER → DEVELOP → EXPRESS

From self-awareness to confident expression through structured learning, guided practice and feedback.

1. PROGRAM PHILOSOPHY

मन **Aura Confidence Academy** follows a practical learning model. Participants first understand their present confidence and communication patterns, then practise targeted skills, and finally demonstrate those skills in real-life style situations.

2. THE THREE-STAGE LEARNING JOURNEY

STAGE 1 — DISCOVER Where am I now?	STAGE 2 — DEVELOP What do I need to practise?	STAGE 3 — EXPRESS Can I apply it confidently?
Self-awareness Confidence blockers Voice & body language Speaking comfort Personal starting point	Structured speaking Communication practice Body-language correction Assertiveness Guided exercises + feedback	Live speaking / presentation Real-life situations Camera or expression task Leadership presence Final practical performance

3. ASSESSMENT & PROGRESS MODEL

Baseline → Guided Practice → Final Assessment

The program begins with a simple baseline assessment and ends with a comparable practical task. Progress is reviewed across key areas such as confidence, clarity, voice, body language, expression and communication.

Participant Preparation

Before the session, participants may be asked to prepare a short self-introduction, identify one confidence-related situation they want to improve, and define one personal learning goal. The intention is not to rehearse a perfect performance, but to observe the participant's natural starting point.

4. LEARNING CYCLE

ASSESS	Understand the starting point
PRACTICE	Learn and practise the skill
FEEDBACK	Receive specific guidance
APPLY	Use the skill in a practical situation
REFLECT	Recognise progress and next steps

5. EXPECTED LEARNING OUTCOME

Participants are guided to build greater awareness, communication skills, practical confidence, and the ability to express themselves more effectively in everyday, professional and social situations. The program focuses on skill development rather than promising a fixed personality change.

6. PROGRAM DISCLAIMER

"Transformation is not promised—it is practised."

मन Aura Confidence Academy provides structured learning, guided practice, practical exercises and feedback. Individual progress depends on the participant's own effort, consistency, participation and application of the skills learned. Results may vary from person to person. The program is educational and skill-development oriented and is not a substitute for clinical, medical or psychological treatment.
